

## SUMMER READING & MATH CLINIC

For: VPK, Kindergarten and 1<sup>st</sup> Grade Students

This Summer we'll once again be offering a **READING and MATH PROGRAM** to students entering Kindergarten, 1<sup>st</sup> and 2<sup>nd</sup> Grade in the Fall. *(We'll need a minimum of 8 students to open the class and we will enroll a maximum of 12 students per Teacher.)*

Our 1<sup>st</sup> Grade Teachers will work individually with the children in order to reinforce concepts previously taught as well as provide them with new material that will help them build a solid foundation for their future educational experience.

- "READERS ARE LEADERS" PROGRAM is a phonics-based, systematic and intensive program designed to raise reading levels. The goal is to encourage children to learn to love to read. Through the use of books, as well as interactive SMARTBoards and games, students should improve their vocabulary and diction. They will be decoding, classifying, identifying, reviewing the sounds of the letters (beginning/middle/ending), learning blends, working on grammar, composition and reading comprehension.
- "MATH MANIA" PROGRAM utilizes a hands-on approach so that children can understand the concept of numbers. Interactive SMARTBoards will be used to reinforce basic skills and learn new concepts. These include: numeration, sequencing, addition and subtraction, time and money, measurements, fractions, classification of objects and shapes, etc.
